PROGRESS REPORT
1967-68

DIVISION I: BUSINESS EDUCATION

We moved into the old library building, which as renovated to accomodate the typewriting, shorthand, machines, and office practice classes. A central office for all Business Education Instructors was arranged in the Business Education Building.

\$300 worth of tapes for shorthand students were added to the listening center of the library.

The crank-driven spirit duplicator was moved to the Business Education Building from the Main Building.

A set of shorthand picture posters were ordered.

An unabridged dictionary and stand were added in the type-writing room.

A printing IBM card punch machine was purchased for the Business Education Division.

DIVISION II: HUMANITIES

A. Art

All offerings in the field of art were made available during the school year. The courses offered were well received and the accomplishments of the students were, with few exceptions, highly commendable. A few students were found to be highly gifted in art.

B. Music

All offerings in the field of music were made available during the school year. A Steinway Grand (nine-foot concert) piano was purchased, and was used the entire year for teaching piano majors and for concerts. A Yamaha piano, which was purchased for the Rotary Auditorium in the new library, was used by groups from the community and for the Mitchell College Choir for rehearsals.

The music department has provided a wide program of services to the religious and secular life of the school. A wider cultural development of the school and community was realized through these programs. Public relations value of the music department is very great.

Division II: Humanities - continued

C. Religion

Aside from making available the offerings in the field of religion, the Chaplain has spent much time in counseling students, and in the religious programs carried on by the school. As a result of a thorough study by a faculty committee of the chapel services held each week, a chapel committee comprised of the chaplain, two faculty members, the president of the student body, the president of the Student Christian Association, and the Dean as an ex-officio member was created. This committee has been charged with the responsibility of improving and enriching the chapel services.

DIVISION III: LANGUAGES

A. English

The English Department had four full-time and three part-time instructors for the fall semester. During the spring semester there were four full-time and two part-time instructors. One of the four full-time faculty members was a National Teacher Fellow. One of the strongest features of the English Department has been the five-day English classes.

The Head of the Language Division was sponsor of Phi Theta Kappa. One of the English instructors sponsored the school newspaper, Campus Comments. Another of the English instructors was sponsor of the annual, The Circle.

Many advantages and facilities made possible by the new library were enjoyed by the English Department. More space, more books, the audio-visual rooms, more tapes, more recordings, and more films were made available.

B. Modern Foreign Languages

A new instructor in the modern foreign language department made it possible for each of the two instructors to teach only the one discipline (one taught Spanish and one taught French). Also, an additional section of Elementary French and Elementary Spanish was made possible.

The listening center was used much more by foreign language students. More movies and recordings were made available. The instructors in the department attended

Division III: Languages - continued

B. Modern Foreign Languages - continued

several professional meetings and foreign language students attended movies in Charlotte and at Davidson College.

DIVISION IV: SCIENCES AND MATHEMATICS

A. Biology

New compound microscopes, new charts, new models, and newer slides have greatly increased the effectiveness of the teaching of biology. The students are doing quite well, since they are better able to understand what they can see. The interest is good and a few students have stated that biology might become their major.

The biology laboratory was in use every day, Monday through Thursday from 8:00 A. M. to 6:30 P. M.

B. Chemistry

Three courses were offered in chemistry during the school year, including Chemistry 221 which is designed for student nurses from Davis Hospital. Lectures were enriched with demonstrations of chemical principles by the teacher and by the students themselves. Laboratory experiences designed and supervised by the teacher to illustrate principles and to develop useful laboratory techniques were included.

Students were encouraged to think creatively by designing and performing their own experiments in chemistry, although they were supervised for safety and pedagogical reasons by the teacher.

C. Mathematics

All offerings in the field of mathematics was made available. Much study has been done in this area by the Dean, the Division Head, and the Mathematics instructors. Plans for changes were made as a result of these studies. A conference with the four branches of the University of North Carolina was attended, where articulation was discussed.

Division IV: Sciences and Mathematics - continued

D. Physical Education

The physical education department accomodated almost all of our students. The service program was enhanced by the addition of classes in bowling. The response was so good first semester that an additional section was added second semester. Other activities offered were golf, basketball, softball, volleyball, soccer, archery, badminton, tennis, tumbling, and weight training.

Many students participated in activities outside of the planned class periods. This is proof of the carry-over value of these activities.

The intramural program has been very successful with good participation in touchball, basketball, and some of the individual sports offered to the men. An intramural program for women includes participation in archery, volleyball, basketball, tennis, badminton, bowling, and softball.

The extramural program consisted of a women's volleyball team and a women's basketball team. The volleyball team played at High Point College, Appalachian State University, and at home. They played a total of six teams. The Tennis Team Day at the University of North Carolina at Chapel Hill was attended by Mitchell students.

The Physical Education Club and Women's Athletic Association sponsored a Physical Education Day on Friday, May 3, as a part of the May Day festivities. All students and faculty were invited to participate and vie for trophies in different areas.

The theory classes in physical education and health were broadened with the addition of First Aid. This course was well received. The other courses offered besides the activities were Personal Health and Principles of Physical Education.

DIVISION V: SOCIAL SCIENCE

The department has accomplished much this school year. New ideas have been explored, and a new course will be offered next year, Anthropology. Mr. Joseph Pickett is now head of the division, and his wife, Mrs. Doris Pickett, joined the staff of the department.

Division V: Social Science - continued

The department identifies its objective as the preparation of the student to take his place as a cultured and well-informed member of contemporary society, and to provide him a foundation for more advanced education by giving him a comprehensive introduction to the disciplines of history, economics, sociology, geography, and government. All these offerings were made available.

Louis Brown and Oscar Stradley, instructors in the division, were active in organizing the Iredell County Historical Society. Mr. Brown is now president and Mr. Stradley is vice-president.

The Social Science Club was very active. It sent its members to hear outstanding speakers in all phases of social science.

Mitchell College obtained membership in the National Model United Nations. Five students and Mrs. Pickett participated in this conference. They visited the United Nations. Membership in the Model United States Congress was also obtained and members attended the meeting at Central Wesleyan College in South Carolina.

LIBRARY REPORT

1. 965 books have been processed and catalogued this year.
2. We now have approximately 14,500 volumes.
3. 86 recordings have been purchased, processed, and catalogued.
4. The library now has 84 reels of microfilm, 101 tapes, 14 films.
5. 97 volumes of periodicals have been bound this year making a total of 1,107 bound volumes.
6. The library receives 130 magazines and 6 newspapers.
7. Cutter (author) numbers have been added to three more sections--000, 100, 200--this year. Catalog cards have been corrected for these and the books have been relabeled.
